Statewide Leadership Conference

In the interest of leadership development and connecting the statewide community, OMES Statewide Learning Services has the honor of hosting an upcoming two-day conference. This conference will serve as a platform to identify, discuss and accomplish vital leadership goals for current and future challenges in the State of Oklahoma. Presentations and conversations will incorporate a wide array of leadership topics represented above with emphasis placed on challenges leaders face. This event will start a year-long conversation on leadership topics that SLS will facilitate throughout the year with wrap-around events, new HCM classes and more. This event is an opportunity for state employees to explore relevant learning content, obtain 12 hours of mandatory supervisory training credit and connect with leaders across the state.
